High Performance Telephony

The Kranium IP enabled PBX is a powerful yet flexible communications server with advanced features at half the cost of traditional phone systems. The Kranium protects your current investments in equipment while providing a future-proof platform to accommodate the needs of your business as it grows. This server based PBX is a stand alone, highly reliable computer that takes all of the individual capabilities of telephony and rolls them into one seamless product. Unlike traditional vendors, Konnech provides a customized solution that fits the demands of your business by providing powerful features at no additional cost.
